

DESCRIPTION AND GENERAL PROPERTIES

- Longer service life and good impact protection, due to the thickness of the material
- Forearm protection. Length: 18»

MAIN FIELDS OF USE

Other industries

- Cleaning and general maintenance in wet environments

Chemical industry

- Chemical product blending
- Cleaning tanks

Petroleum industry

- Handling

INSTRUCTIONS FOR USE

Instructions for use

- It is recommended to check that the gloves are suitable for the intended use, because the conditions of use at the workplace may differ from the «CE»-type tests.
- It is not recommended for persons sensitized to natural latex, dithiocarbamates and thiazoles to use these gloves.
- Put the gloves on dry, clean hands.
- Do not use the gloves in contact with a chemical for a duration in excess of the measured breakthrough time. Refer to the website www.mapa-pro.com or contact the Technical Customer Service - MAPA PROFESSIONAL (mapa@jardensafety.com) in order to know breakthrough time. Use 2 pairs alternatively when in long duration contact with a solvent.
- Turn the cuff end down in order to prevent a hazardous chemical from dripping onto the arm.
- Inspect the gloves for cracks or snags before reusing them.

Storage conditions

Store the gloves in their original packaging protected from direct sunlight, far from heat sources or electric equipment.

Laundering conditions

Before taking off the gloves, clean them as appropriate :

- in use with a solvent (alcohol, etc...) : rub over with a dry cloth
- in use with detergents, acids or alkalies : thoroughly rinse the gloves under running water, and rub over with a dry cloth

Caution : improper use of the gloves or submitting them to a cleaning or laundering process, which is not specifically recommended, can alter their performance levels.

Drying conditions

Ensure the inside of the gloves is dry before putting them on again.
