HI DENSITY NATURAL POLYETHYLENE

Advances in plastic technology continue to open new doors both in equipment and in raw materials. Taking advantage of the latest advances in the polymer sciences, TRM Manufacturing is adding two new items to its family of products which we feel will have great demand in the paint, plaster and related industries.

The features of these new products will be a combination of:

- (1) VERY LIGHT GAUGE
- (2) UNUSUAL TOUGHNESS OF MATERIAL
- (3) EASE OF OPENING FOLDED ROLLS
- (4) CONSISTENT ABILITY OF MASKING TAPE TO ADHERE TO PRODUCT

While the technical name of the material is really longer, we're calling it "Hi Density Natural". Advance product samples to the market indicate that it is already a winner, with immediate demand.

HI DENSITY NATURAL

--------	------------	-------	---	---

These items are maintained in inventory, and custom sizes made from this same 'WEATHER-ALL' 'FR' formulation can be produced and delivered with an availability of approximately two weeks.

Items shown can be ordered by themselves or in combination with other TRM products for prepaid freight and quantity discounts.

This film is milky translucent white in color due to the content of stabilizing flame retardant additives designed specifically for low density polyethylene films. It is an antimony-trioxide-halogen based system which imparts flame retardant properties by:

- A. Interfering with the combustion process.
- B. Reducing the transfer of heat from the flame to the film.
- C. Resulting in a film that is much less flammable than those which are unstabilized.

TRM 'WEATHER-ALL' Flame Retardant Film has been tested in accordance with Section 13121 of the Health and Safety Code, state of California. It was found to meet the requirements of the State Fire Marshal for interior flame retardant materials and has been registered accordingly, #F-325. Those tests were conducted in accordance with ASTM D568-68.

TRM 'WEATHER-ALL' Pallet Covers are available as stock items in six popular sizes. These can be ordered without the delay of minimum order requirements associated with custom orders. Produced from 100% virgin raw materials and packaged in convenient serrated rolls, the covers offer an ideal solution to many storage problems.

TRM 'WEATHER-ALL' Drywall Covers are constructed from .002 (two mil) clear centerfold sheeting, heat sealed at either end and packaged in convenient rolls of 25 covers per roll. They are made from a special formulation of 100% virgin high strength raw materials. Standard sizes are available to fit either single or double stacks of 8 or 12 foot sheets.

TRM 'WEATHER-ALL' Flag Bags are a brilliant red in color and packed in convenient serrated rolls of 250 for easy tear-off. This item is designed for use as "long-load" warning flags.

TRM 'WEATHER-ALL' Clean Up Bags are the ideal answer for construction job sites or anywhere only the toughest bag can get the job done. Comes 15 bags per roll w / wire ties, 2 rolls per box in a specially printed die-cut dispenser.
